Subject:- Regarding Updation of Student Database Management System(SDMS) for the year 2023-24 in UDISE + Online Portal .

Sir/Madam

As per guidelines received from State Project Director Vide Letter NO.HPSES(SSA/RMSA)-MIS-02/2003-Vol-XI-9005-06 dated 31-08-2023 on the subject cited above. As you are aware that Govt. of India has collected entire data of school education every year. During the year 2022-23 the data was collected in three modules of UDISE+ portal viz. School basic profile & facilities, Teachers and Students. Under student module, data of students is collected in 45 different parameters in UDISE+(SDMS) for the year 2022-23. GOI had provided unique national & State ID to each student, which will be useful for the tracking of the student's journey from pre-primary to higher secondary level as well as student academic performance. Now, Govt. of India has opened student upgrade module (SDMS) from 2022-23 to 2023-24. The other two module of School basic & facilities and Teachers will be available for updation from the 2nd week of September, 2023.

This Student Database Management System (SDMS) keeps track of the enrolment and results of the students in school. Under this module, schools have to update the progression activity of students from 2022-23 to 2023-24.
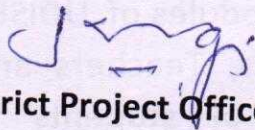

According to the module, each student has to be updated on result, marks obtained, number of days attended by the student, continued in the existing school or taken TC. In this regard, school users of each school have already been created under UDISE+ portal and school can easily update each student at their own through mobile or computer.

In this regard online videos have been prepared and uploaded on the link: **www.samagrashiksha.hp.gov.in/homeContent/76/20.**

Therefore. you are requested to update the SDMS data (Progression Activity) at UDISE+ portal by 25th of Sep., 2023, so that the same could be completed in time.

Yours Faithfully,

District Project Officer (Samagra Shiksha)
District Shimla at DIET Shamlaghat
